While this book primarily focuses on marital practices in Cameroon, it will also be helpful to those who minister in other countries because of cultural similarities. The biblical principles concerning marriage can be applied to any culture. Those who are interested in learning about cultures around the world will also find this book helpful.

The purpose of this book is to encourage Cameroonian church leaders to establish biblical policies concerning practices regarding the entrance into a marriage relationship. This book will treat topics such as premarital relations, the payment of the dowry (bride price), the marriage ceremony, the relationship to families and in-laws, and the practice of polygamy.

Because native culture shapes Cameroonian believers' thoughts on marriage, this book will show how to apply biblical teaching to the practices of the Cameroonian culture. Churches will be able to prepare believers for marriage by supplying them with a biblical foundation that will lead them to years of effective service together for Christ. Churches will have a biblical guide for their policies regarding people in these difficult situations who desire to join the church.

This book will treat these issues as found in the Cameroonian culture. The scope of this book includes the issues dealing with the entrance into the marriage relationship. While there are many difficulties that arise within a marriage because of the Cameroonian culture, those aspects of the marriage relationship are not included in the scope of this book. While this book may be valuable as a tool for helping a young believer to prepare for marriage, it is not intended to treat all of the subjects that one would need to discuss in premarital counseling. A counselor would need to discuss such topics as finances, rearing children, and goals, which will not be treated in this book.

Although this book will present conclusions that are based on scriptural principles, one must realize that there is no clear teaching of Scripture on some of the issues discussed. Therefore, there is room for individual interpretation and discussion with those who come to conclusions that are different but that are also based on biblical principles derived from sound biblical interpretation.
