Owncloud 9 unter Debian GNU Linux "Jessie" selbst hosten: Do it yourself! Owncloud 9 (German Edition) Daniel Gestl

Nach wie vor sind Clouddienste in aller Munde. Anbieter locken mit kostenlosem Speicherplatz, sofern der Speicherhunger nicht zu groß wird. Was aber geschieht mit unseren Daten, die wir in so einem Fall mehr oder weniger an Dritte übergeben? Trotz möglicher Verschlüsselung bleibt ein fader Beigeschmack. "Da baue ich mir doch lieber meinen eigenen Clouddienst mit Hilfe von freier Software und meinem eigenen Rootserver." Dieses "Arbeitsbuch" geht detailliert auf die Installation eines Rootserver unter Debian GNU Linux 8 ein, welcher dann in weiterer Folge als Owncloud-Host dient. Neben der Installation der notwendigen Dienste für Owncloud, kommt auch die Absicherung des Systemes nicht zu kurz: Automatische Updates, Monitoring und auch die Einrichtung eines "send only" Mailservers, um Benachrichtigungen zu erhalten, zählen zum Inhalt. Ach ja, die Owncloudinstallation selbst wird auch thematisiert... ;-)
