Raspberry Ketone Weight Loss: A Miracle Fat-Burner in a Bottle? Jonas Lee

When Raspberry Ketone hit The Dr. Oz Show, many people looking for a wonder weight loss product got excited and hopeful of instant fast result with this magical pill.

As a result of the media hype and buzz on this Fat-Burner in a bottle, sales of raspberry ketone soared and many more brands of this fruity supplement lined up to fill the shelves of supplement store. There were moments when stores ran out of stock on this sudden hike in demand for this super hot, Dr. Oz 'endorsed' weight loss supplement (though Dr. Oz never endorsed any product on his show).

The real problem with a weight loss product or any supplement that hit The Dr. Oz Show is the hype and buzz that projects only the superficial information without the complete information. As a result, many people are not well-informed in the product featured.

When people try to search for information on the newly publicized product, they normally come across websites which blatantly promote the product with the same information repeated over and over again. Sometimes, you will notice certain sites repeated the wrong information. It can be quite hilarious how product promoting sites make a fool of themselves by regurgitating the wrong information because they have no knowledge on the subject matter.

The objective of this Raspberry Ketone Weight Loss book is to review the available information and research more thoroughly, so that readers will have sufficient information and a better view of a product before making a decision whether or not they should take the product.
