Dream Your Life Amazing Bill Ebert

Dream-Based Living This book is a culmination of 30 years of learning, teaching and studying under those who are achieving success. I have coached thousands of entrepreneurs and families on these principles of life. Any book that is written to help you change, will require three things. Number one is MINDSET. If you have stinking thinking, you will fail no matter how much you learn. Number two is SKILL SET. I also refer to skill set as life HACKS. It's the things people do to win in life, gain friendships, get rich, live happy. Number three is HABIT. I added to this book what I think is the missing piece in most self-help books: The tools and techniques to make habit of the things you learn and build your life around what is truly important. This is what I desire to do more than anything else in the world, teach people to find and fulfill their destiny and in the process what is true.
