## Interventions for Addiction: Comprehensive Addictive Behaviors and Disorders, Volume 3

*Interventions for Addiction* examines a wide range of responses to addictive behaviors, including psychosocial treatments, pharmacological treatments, provision of health care to addicted individuals, prevention, and public policy issues. Its focus is on the practical application of information covered in the two previous volumes of the series, *Comprehensive Addictive Behaviors and Disorders*.

Readers will find information on treatments beyond commonly used methods, including Internet-based and faith-based therapies, and criminal justice interventions. The volume features extensive coverage of pharmacotherapies for each of the major drugs of abuse—including disulfiram, buprenorphine, naltrexone, and others—as well as for behavioral addictions. In considering public policy, the book examines legislative efforts, price controls, and limits on advertising, as well as World Health Organization (WHO) efforts.

*Interventions for Addiction* is one of three volumes comprising the 2,500-page series, *Comprehensive Addictive Behaviors and Disorders*. This series provides the most complete collection of current knowledge on addictive behaviors and disorders to date. In short, it is the definitive reference work on addictions.

- Includes descriptions of both psychosocial and pharmacological treatments.
- Addresses health services research on attempts to increase the use of evidence-based treatments in routine clinical practice.
- Covers attempts to slow the progress of addictions through prevention programs and changes in public policy.
