## **Field and Service Robotics: Results of the 8th International Conference (Springer Tracts in Advanced Robotics)**

FSR, the International Conference on Field and Service Robotics, is the leading single track conference of robotics for field and service applications. This book presents the results of FSR2012, the eighth conference of Field and Service Robotics, which was originally planned for 2011 with the venue of Matsushima in Tohoku region of Japan. However, on March 11, 2011, a magnitude M9.0 earthquake occurred off the Pacific coast of Tohoku, and a large-scale disaster was caused by the Tsunami which resulted, therefore the conference was postponed by one year to July, 2012. In fact, this earthquake raised issues concerning the contribution of field and service robotics technology to emergency scenarios. A number of precious lessons were learned from operation of robots in the resulting, very real and challenging, disaster environments. Up-to-date study on disaster response, relief and recovery was then featured in the conference. This book offers 43 papers on a broad range of topics including: Disaster Response, Service/Entertainment Robots, Inspection/Maintenance Robots, Mobile Robot Navigation, Agricultural Robots, Robots for Excavation, Planetary Exploration, Large Area Mapping, SLAM for Outdoor Robots, and Elemental Technology for Mobile Robots.

### **From reader reviews:**

#### **Tom Seaman:**

Within other case, little men and women like to read book Field and Service Robotics: Results of the 8th International Conference (Springer Tracts in Advanced Robotics). You can choose the best book if you want reading a book. Provided that we know about how is important a new book Field and Service Robotics: Results of the 8th International Conference (Springer Tracts in Advanced Robotics). You can add information and of course you can around the world by just a book. Absolutely right, since from book you can realize everything! From your country till foreign or abroad you may be known. About simple thing until wonderful thing it is possible to know that. In this era, you can open a book or maybe searching by internet device. It is called e-book. You can utilize it when you feel bored to go to the library. Let's go through.

#### **Ronald Adams:**

As people who live in often the modest era should be up-date about what going on or facts even knowledge to make these people keep up with the era which is always change and make progress. Some of you maybe will probably update themselves by looking at books. It is a good choice in your case but the problems coming to anyone is you don't know what kind you should start with. This Field and Service Robotics: Results of the 8th International Conference (Springer Tracts in Advanced Robotics) is our recommendation to help you keep up with the world. Why, as this book serves what you want and wish in this era.

#### **Hilda Dolan:**

Nowadays reading books be a little more than want or need but also turn into a life style. This reading practice give you lot of advantages. Advantages you got of course the knowledge the actual information inside the book which improve your knowledge and information. The information you get based on what kind of e-book you read, if you want get more knowledge just go with knowledge books but if you want truly feel happy read one along with theme for entertaining including comic or novel. Often the Field and Service Robotics: Results of the 8th International Conference (Springer Tracts in Advanced Robotics) is kind of guide which is giving the reader unforeseen experience.

#### **Stella Keith:**

Many people spending their moment by playing outside together with friends, fun activity having family or just watching TV 24 hours a day. You can have new activity to pay your whole day by studying a book. Ugh, you think reading a book can definitely hard because you have to take the book everywhere? It all right you can have the e-book, getting everywhere you want in your Touch screen phone. Like Field and Service Robotics: Results of the 8th International Conference (Springer Tracts in Advanced Robotics) which is getting the e-book version. So , try out this book? Let's view.
