Who knew? For the past twenty-something years, I've been writing sultry stories about characters who know what they need. I've been patient with them. I've provided all the toys and tools. I've shown them the way. My brain is an interesting location—more of a bar than a bus station. Characters arrive and make themselves at home. I pour a drink and find out exactly what each one yearns for. What I didn't realize is that over the years many of my men have craved a strong female lover. These submissive males have gone on their knees and begged me to fulfill their fantasies. Not until I put this collection together did I realize how many sub men I've penned. And pleased. And played with. So here is my first ever solo collection of Femdomme Erotica, which contains the stories Broken, Plucked, All in the Wrist, and WYSIWYG. Several of the stories have appeared in other erotic anthologies over the years, but this is the first time they've been cuffed all in a row. My latest piece, WYSIWYG, has never been printed anywhere before! XXX, Alison Tyler
