An alien warrior makes a promise to protect an Earth colony from a horrifying invading horde, but the lovely, stubborn governor vows to save her people and the stranger committed to dying in battle.

Alien warrior, Liam of Gaviron, has lost everything. Keeping his promise to a dying Earthling to keep the man's daughter and her mother safe from an invading horde offers him a chance to end his tortured existence fighting his hated enemy.

Governor Siva had almost given up hope for the survival of her colony until Liam arrives and beats back the predators killing her people. But as her hopes rise, she realizes Liam has none for himself. Her mission expands to teaching the handsome, grim warrior how to live and love again.

But first they must fend off starvation and kill the hundreds of hungry, intelligent creatures that have made humans their favorite meal.
