ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you **select the correct ISBN**. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, **you may need a CourseID**, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

Packages
Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase.

Used or rental books
If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code.

Access codes
Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase.

Technical Communication offers complete coverage of technical communication, business communication, and professional writing in a user-friendly writing style. The topics move from basic foundational concepts, to chapters on research, visuals, style, document design, usability, and finally to specific documents (basic workplace correspondence to more complex documents, technologies, and oral presentations). The appendix includes thorough coverage of MLA, APA, and CSE (Council of Science Editors) documentation styles, and a handbook of grammar, mechanics, and usage. All descriptions of and instructions for creating technical documents are accompanied by clear, annotated model documents. In addition, graphic illustrations appear throughout the book to make abstract concepts easy to understand. Checklists and Projects provide plentiful opportunities to learn and reinforce chapter topics.
