## Women in Numbers Europe: Research Directions in Number Theory (Association for Women in Mathematics Series)

Covering topics in graph theory,  $L$ -functions,  $p$ -adic geometry, Galois representations, elliptic fibrations, genus 3 curves and bad reduction, harmonic analysis, symplectic groups and mould combinatorics, this volume presents a collection of papers covering a wide swath of number theory emerging from the third iteration of the international Women in Numbers conference, “Women in Numbers - Europe” (WINE), held on October 14–18, 2013 at the CIRM-Luminy mathematical conference center in France. While containing contributions covering a wide range of cutting-edge topics in number theory, the volume emphasizes those concrete approaches that make it possible for graduate students and postdocs to begin work immediately on research problems even in highly complex subjects.

### **From reader reviews:**

#### **Lewis Dall:**

What do you think of book? It is just for students because they are still students or it for all people in the world, what best subject for that? Just you can be answered for that issue above. Every person has several personality and hobby for each other. Don't to be compelled someone or something that they don't would like do that. You must know how great as well as important the book Women in Numbers Europe: Research Directions in Number Theory (Association for Women in Mathematics Series). All type of book can you see on many sources. You can look for the internet solutions or other social media.

#### **Mark Malek:**

The actual book Women in Numbers Europe: Research Directions in Number Theory (Association for Women in Mathematics Series) will bring someone to the new experience of reading the book. The author style to spell out the idea is very unique. In the event you try to find new book to read, this book very ideal to you. The book Women in Numbers Europe: Research Directions in Number Theory (Association for Women in Mathematics Series) is much recommended to you to see. You can also get the e-book in the official web site, so you can quicker to read the book.

#### **Carol Benally:**

Are you kind of stressful person, only have 10 or 15 minute in your morning to upgrading your mind talent or thinking skill also analytical thinking? Then you are experiencing problem with the book as compared to can satisfy your short period of time to read it because all this time you only find publication that need more time to be read. Women in Numbers Europe: Research Directions in Number Theory (Association for Women in Mathematics Series) can be your answer because it can be read by an individual who have those short extra time problems.

#### **Audrey Mack:**

Reading a reserve make you to get more knowledge as a result. You can take knowledge and information originating from a book. Book is written or printed or illustrated from each source which filled update of news. In this particular modern era like today, many ways to get information are available for a person. From media social including newspaper, magazines, science book, encyclopedia, reference book, fresh and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to open your book? Or just searching for the Women in Numbers Europe: Research Directions in Number Theory (Association for Women in Mathematics Series) when you essential it?
