Science and Christianity: Conflict or Coherence? Henry F. Schaefer

Professor Henry F. (Fritz) Schaefer is one of the most distinguished physical scientists in the world. The U.S. News and World Report cover story of December 23, 1991 speculated that Professor Schaefer is a "five time nominee for the Nobel Prize. "He has received five of the most prestigious awards of the American Chemical Society, as well as the most highly esteemed award (the Centenary Medal) given to a non-British subject by London's Royal Society of Chemistry. He is a Fellow of the American Academy of Arts and Sciences. Moreover, his general interest lectures on science and religion have riveted large audiences in nearly all the major universities in the U.S.A. and in Beijing, Berlin, Budapest, Calcutta, Cape Town, New Delhi, Hong Kong, Istanbul, London, Paris, Prague, Sarajevo, Seoul, Shanghai, Singapore, Sofia, St. Petersburg, Sydney, Tokyo, Warsaw, Zagreb and Zurich. In the present book, Dr. Schaefer's university lectures have been expanded to full length essays. Thus we have a first-hand account of the lively current science/Christianity discussions by one of the major participants. Finally, the present book describes why and how Dr. Schaefer became a Christian as a young professor of chemistry at the University of California at Berkeley. Throughout, the book retains the highly personal character of the university lectures, general respect for those with whom the author disagrees, and a delightful sense of humor.
