Acute Medicine Pocketbook, 1e

Christopher Ball, Robert Phillips

Acute Medicine Pocketbook, 1e Christopher Ball, Robert Phillips

Here's quick access to evidence-based recommendations for the diagnosis and management of 41 acute medical conditions. For each condition, there is a four-page guide with brief, bulleted text that outlines symptoms, investigation, therapy, and more. Recommendations are made based on a systematic review of available evidence using approved EBM methods. The weight of each recommendation is graded using the letters A through D, with no additional EBM jargon or statistics. This pocketbook allows readers to reap the benefits of evidence-based research without all the hard work!

- Features the expertise of two reviewers from the Centre for Evidence-Based Medicine at Oxford, who were advised by Dr. David L. Sackett, one of the "founding fathers" of EBM.
- Offers brief, practical guidance that is suitable for instant reference.
- Reflects the best available evidence, culled from searches and appraisals that were carried out according to approved EBM criteria.
- Requires no prior knowledge of EBM or statistics.
- Includes boxes containing clinical tips and warnings.
