## **First Grade Technology: 32 Lessons Every First Grader Can Accomplish on a Computer** Structured Learning It Teaching Team

The choice of hundreds of school districts, private schools and homeschoolers around the world and tens of thousands of students, this nine-volume tech ed curriculum is the all-in-one solution to running an effective, efficient, and fun technology program for kindergarten-eighth grade (each grade level textbook sold separately) whether you are the lab specialist, IT coordinator, or classroom teacher. Each lesson is aligned with both Common Core State Standards and National Educational Technology Standards, and includes an Essential Question, Big Idea, suggested Assessments, required materials, vocabulary, problem solving, teacher preparation required, how to extend learning, examples, grading rubrics, additional resources, and how students can collaborate/share projects. Using a tested approach that promotes literacy, critical thinking, problem-solving, and decision-making, students learn the technology required to prepare for their future. The secret for you, as teacher, is knowing what to teach and when. Each textbook includes a K-6 wide-ranging Scope and Sequence, 32 weekly lessons, monthly homework (3rd-5th only), student Certificate of Completion, a comprehensive list of websites to support learning, articles that address tech pedagogy, and posters ready to print and hang on your walls. With your purchase, you receive FREE access (via companion blogs, newsletters, and wikis) to a wealth of online resources including hundreds of teacher materials that differentiate instruction, websites that extend learning, and free help from professionals using the curriculum (membership included with purchase). Note: Color and embedded links shown in Click to Look Inside are included in pdf only.
