**Niemandland** Gareth Pritchard

Niemandland is the untold story of the largest and most enduring of the unoccupied enclaves that survived after Germany's invasion and occupation by Allied forces in 1945. Sandwiched between American and Red Army lines, the 500,000 inhabitants were cut off from the outside world and left to fend for themselves in the face of crippling shortages of food, fuel and housing. Gareth Pritchard charts how groups of Communists, Socialists and antifascists came together to form 'antifascist' committees which seized power and set about restoring order, ensuring the supply of food and essential services and hunting down, disarming and arresting fugitive Nazis. This is not only a fascinating history in its own right but it also sheds important new light on the fate of Germany after 1945. Only in Niemandland do we see what happened when the currents of post-Nazi German politics were allowed to flow freely, unimpeded by Allied intervention.
