Capitalizing on the experiences of the international contributor team, this book will inform the preparation and further development provided to school leaders in an era where ministries of education, universities and multinational organisations (such as the OECD) are increasingly interested in the leadership of our schools.

Systematic analyses of multi-perspective data provided from around the world and offers the readers a comprehensive picture of the key behaviours and practices central to successful and effective school leadership. An original contribution to the theoretical perspectives on the subject is derived through insights from empirical research, case studies, and bibliographical literature from the field.
